Weekly Progress Report

Name: Gayatri Devi

Domain: Internet of Things (IoT) & Python Development

Date of submission: July 20, 2026

Week Ending: 01

I. Overview:

This week, the primary focus was on understanding USC_TIA and contributing to Python projects. Additionally, efforts were made to leverage learning resources for skill enhancement.

II. Achievements:

1. USC_TIA Familiarization:

- Explored USC_TIA documentation to grasp core functionalities.
- Successfully executed basic tasks, showcasing initial proficiency.

2. Python Project Contributions:

Name of the project: Basic IoT Data Logger & Python Automation

- Contributed code to data collection modules with a focus on sensor reading processing and structured logging.
- Engaged in effective collaboration with team members.

3. Learning Python:

- Acquired proficiency in essential Python libraries, such as NumPy, Requests, and Time/OS modules.
- Applied Python skills to real-world problems within USC_TIA context.

III. Challenges:

1. USC_TIA Integration:

- Encountered challenges during USC_TIA integration with local Python environment setups.
- Ongoing efforts to troubleshoot and ensure successful integration.

2. Python Project Complexity:

- Faced complexity in understanding asynchronous routines and data stream parsing within the Python project.
- Seeking guidance to overcome challenges and enhance understanding.

IV. Learning Resources:

1. USC_TIA Documentation:

- Utilized USC_TIA official documentation for reference and troubleshooting.
- Attended relevant webinars and online tutorials to deepen understanding.

2. Python Learning Resources:

- Engaged with course tutorials and platform modules to strengthen Python skills.
- Participated in coding challenges and discussion forums for practical application.

V. Next Week's Goals:

1. USC_TIA Enhancement:

- Address integration challenges and explore advanced USC_TIA features.
- Collaborate with peers to contribute to USC_TIA improvement discussions.

2. Python Project Development:

- Tackle more complex tasks within the Python project to increase contribution.
- Seek feedback from mentors and peers for continuous improvement.

VI. Additional Comments:

Overall progress for Week 1 has provided a clear foundation in both USC_TIA ecosystem and practical Python implementation. Collaboration with peers and mentors has been supportive in resolving initial technical setup roadblocks.
